

Measurement Chart

BRIDE'S NAME _____
YOUR NAME _____
ADDRESS _____ PHONE _____
CITY _____ STATE _____ ZIP _____

1. **NECK:** Measure around the base of your neck. _____ inches
2. **BUST:** Measure around your breasts, across your nipples. Keep the tape near your underarms. _____ inches
3. **WAIST:** Measure around the smallest portion of your torso. Take the measurement two or three times in order to locate the smallest point. Tie a string around the smallest point in order to re-locate it for other measurements. This step is very important so that each measurement from the waist starts at the same location. _____ inches
4. **HIP:** Measure around the largest portion of your torso. This measurement could be anywhere between the waist and the knees. Measure several times until you find the largest measurement. When you locate that point, measure the distance from the string around your waist to the hip. This is your hip depth.
Hip _____ inches
Hip depth _____ inches
5. **LENGTH:** To measure the length, extend the tape measure from the string tied around your waist to the floor, while you are barefoot. _____ inches
6. **FRONT:** Measure from the collarbone above your chest, down to the string tied around your waist to the floor, while you are barefoot. _____ inches
7. **BACK:** Measure from the bone that protrudes from the base of your neck down your back to the string tied around your waist. _____ inches
8. **BICEPS:** Measure around the thickest part of your upper arm. _____ inches
9. **ELBOW:** Measure around your elbow. _____ inches
10. **WRIST:** Measure around your wrist, where your wrist bone is. _____ inches
11. **SLEEVE LENGTH:** With your arm down by your side, measure from your armpit down to your wrist bone. _____ inches
- 11A. **SLEEVE LENGTH:** With your elbow slight bent measure from the top of your shoulder down to your wrist bone. _____ inches

For a more accurate fit, your couturier would prefer measuring you herself. However, if it not possible for you to meet with her, please use this chart and have a professional measure you. Then fax of mail to us. Thank you very much.
